Memorandum

Date: February 4, 2026
To: Brick and Boards Employees
From: Blong Lor, Project Manager
Subject: New Drug-screening Policy

Effective Immediately
Brick and Boards have decided to implement a new drug-screening policy to prevent harm to life and property while on the job.

How to Take Drug Screening Test
The company and clients have determined that random drug-screening for all employees is necessary to reduce on-the-job risk to life and property.
Employees selected at random will,

1. Be notified in person by their supervisor
2. Be given a urinalysis order slip
3. Bring the order slip to any Quest Diagnostics site the following workday (Monday if notified on Friday)
4. Conduct their drug screening test on site free of charge

This new policy was not influenced by any incident.
The policy aligns with industry standards and was made to be in the best interest of everyone here at Brick and Boards. Thank you for your understanding and cooperation in the new drug-screening policy.
