Subject: Brainstorming

January 21, 2026

Hi everyone,

We have an important deal with a major European player coming up. Before I can make an offer, let's brainstorm solutions.

The client needs a proposal by December 5th, so I need your input before that date. Give me your ideas about the following:

- What should we charge for our product if the client buys it in bulk?
- How long will it take for production?
- Can delivery be promised in six weeks?

Please send your feedback to me by tomorrow, 1:00 PM. Again, I would like to reiterate the importance of closing this deal with our new client. Bonuses will be sent out to everyone involved in closing this deal. Thanks for your time, everyone.
