How to Post a Discussion in D2L

Purpose

These instructions were made to teach you how to interact with other students and teachers and post your own discussions on D2L.

Login to D2L

1. Open a browser and go to *hennepintech.edu/student.html.*
2. Below "Hello Techie.", click on D2L Brightspace.
3. Login using your *StarID*.minnstate.edu and password (replace *StarID* with your own).

Navigate to Your Class and its Discussion Section

1. On the right side of your screen, click on your course.
2. At the top next to Content and Assignments, click on Discussions.
3. Click on the correct Discussion topic for you.

Start a New Thread Replying to the Discussion Topic

1. Click on the blue button "Start a New Thread".
2. Enter a subject pertaining to the Discussion Topic, and write your reply in the Post box below it.
3. You may add attachments if needed and click the blue "Post" button beneath when you are done replying.

Reply to Other Threads

1. At this point, you will be directed back to the initial Discussion Topic post and will see the threads made by other students.
2. Click on their blue subject titles to interact with the thread.
3. Here, you will see a blue "Reply to Thread" button.
4. Click on "Reply to Thread" if you wish to interact with other students and post your reply.

With this done, you have successfully posted your own reply/thread to your instructor's Discussion Topic and even replied to other students in your class.
