Exercise 1:

The table, pie chart, and bar graph below show the five different kinds of relays and the number of relays that were bought in 2014 by ITC.

ITC Relays Bought in 2014	
Nestor 221	40000
Van Court 1200	20000
Macro R40	20000
Camrose Series 8	10000
Hardy SP6	10000

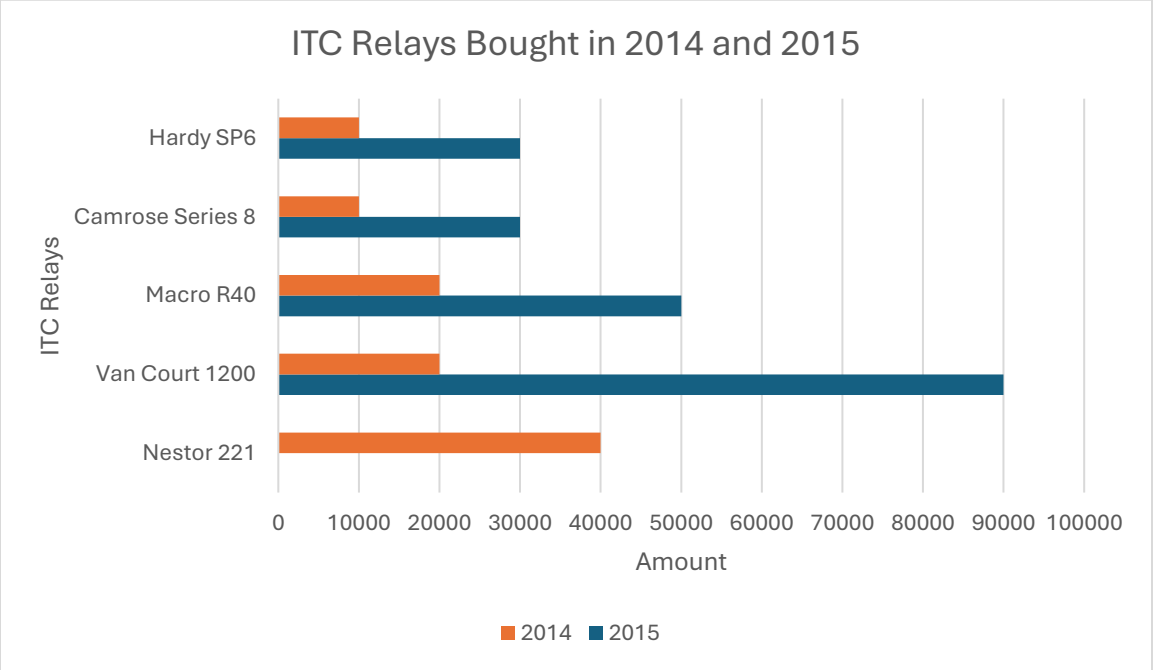

As you can see, ITC bought five different kinds of relays in 2014, favoring the Nestor 221. 40 percent of their 2014 relay budget was used on the Nestor 221 relay.

Exercise 2:

The bar chart and table below show the updated number of relays bought by ITC in 2015 compared to 2014.

ITC Relays Bought in 2014 and 2015		
	2014	**2015**
Nestor 221	40000	0
Van Court 1200	20000	90000
Macro R40	20000	50000
Camrose Series 8	10000	30000
Hardy SP60	10000	30000

As you can see, 2015 saw many changes in the number of relays that ITC purchased. Most notably, zero Nestor 221s were purchased in 2015 and Van Court 1200s jumped from 20000 relays purchased in 2014 to 90000 relays purchased in 2015.
